- CSS
- MANUAL TESTING

Job Objective

Tech Enthusiast in the Engineering domain is seeking to apply and expand my knowledge and skills towards working in a collaborative environment to develop quality software solutions that address and solve business problems.

Experience

Account Executive - Omega Healthcare - (DEC 2022 - MAR 2023)

➤ Strong communication, teamwork, time management, problem-solving, adaptability, decision-making, leadership, and analytical abilities in dynamic work environments. Collaborates effectively with colleagues and clients.

➤ Computer-savvy with expertise in spreadsheet software, CRM systems, and presentation tools. Utilizes these skills to enhance financial analysis, customer management, and communication abilities for optimal job performance and adaptability to new technologies.

➤ Obtained valuable insights into the financial health of the company, analyzing revenue streams, payment patterns, and cash flow to support informed business decisions.

Project Engineer - Multitech Automations - (AUG 2021 - NOV 2022)

➤ Led automation projects from inception to completion, designing and implementing solutions to optimize processes, improve efficiency, and reduce operational costs.

➤ Skilled in PLC programming, HMI development, SCADA systems, simulation tools, data analysis, version control, IoT, cloud platforms, and database management.

➤ Mentored and trained team members on automation processes, cultivating a skilled and knowledgeable workforce.

➤ Led and coordinated Schneider's Lab project across multiple locations, including Govt ITI Cuttack, Odisha, Divine Institute Of Technology Baripada, Odisha, and Central Solar Institute Delhi.

➤ Represented Veichi International at EL ASIA 2022 Exhibition, Bangalore, showcasing cutting-edge solutions, effectively communicating value propositions, and enhancing market presence through networking and visibility.

Internship

O **Full Stack Developer Intern - Kodnest**

Completed a rewarding internship at Kodnest from February 2023 to July 2023, focusing on learning Java programming language. Gained practical experience in Java fundamentals, object-oriented concepts, and application development. Collaborated with experienced mentors on real-world projects, honing coding skills, and problem-solving abilities.

O **Cyber Security - Appin Technology LAB**

Completed internship on Cyber Security and Ethical Hacking Programme at Appin Technology Lab from April 2021 to May 2021. Acquired hands-on experience in various aspects of cybersecurity, including ethical hacking techniques, network security, and data protection.

Projects

O **Porfolio website**

Crafted a vibrant portfolio website with React, HTML, CSS, and JavaScript. It's responsive, interactive, and loads quickly for a seamless user experience. This project showcases my expertise in creating engaging web experiences.

O **Login-Signup web page**

Designed and built a user-friendly Login-Signup web app using React, HTML, JavaScript, and CSS. The project features seamless authentication and dynamic form handling for a smooth user experience. This demonstrates my adeptness in crafting secure, interactive web applications.

Certifications

O **Java Full Stack Development and Software Testing**

Certified in Java Full Stack Development and Software Testing by Kodnest, demonstrating expertise in front-end and back-end development, Java programming, web development, databases, and software testing methodologies.

O **Google Cloud Fundamentals: Core Infrastructure**

Core Infrastructure certified, with in-depth cloud computing expertise, strong foundational skills in GCP services (compute, storage, networking, security), and cloud-based solution proficiency.
